AB Disclosed herein are novel phenol oxidizing enzymes naturally-produced by strains of the species **Stachybotrys** which possess a pH optima in the alkaline range and which are useful in modifying the color associated with dyes and colored compounds, as well as in anti-dye transfer applications. Also disclosed herein are biologically-pure cultures of strains of the genus **Stachybotrys**, designated herein **Stachybotrys** parvispora MUCL 38996 and **Stachybotrys** chartarum MUCL 38898, which are capable of naturally-producing the novel phenol oxidizing enzymes.

Disclosed herein is the amino acid and nucleic acid sequence for **Stachybotrys phenol oxidizing enzyme** B as well as expression vectors and host cells comprising the nucleic acid. Disclosed herein are methods for producing the **phenol oxidizing enzyme** as well as methods for constructing expression hosts.

abandoned
which is it?
maybe.

AB Disclosed herein are phenol oxidizing enzymes obtainable from species of Stachybotrys which are useful in modifying the color assocd. with dyes and colored compds., as well as in anti-dye transfer applications. Also disclosed herein are biol.-pure cultures of strains of the genus Stachybotrys , designated herein Stachybotrys parvispora MUCL 38996 and Stachybotrys chartarum MUCL 38898, which are capable of naturally-producing the novel phenol oxidizing enzymes. Disclosed herein is the amino acid and nucleic acid sequence for Stachybotrys phenol

oxidizing enzymes as well as expression vectors and host cells comprising the nucleic acid. Disclosed herein are methods for producing the phenol oxidizing enzyme as well as methods for constructing expression hosts. Disclosed herein are enzyme compns. comprising phenol oxidizing enzymes obtainable from species of Stachybotrys. Based on their color-modifying ability, phenol-oxidizing enzymes of the present invention can be used, for example, for pulp and paper bleaching, for bleaching the color of stains on fabric, and for anti-dye transfer in detergent and textile applications.

ST **phenol oxidizing enzyme Stachybotrys** ; sequence phenol oxidizing enzyme cDNA gene Stachybotrys; bleaching **phenol oxidizing enzyme Stachybotrys** ; textile bleaching **phenol oxidizing enzyme Stachybotrys**; dye bleaching **phenol oxidizing enzyme Stachybotrys**; paper bleaching **phenol oxidizing enzyme Stachybotrys**
